The SSIG-SegPlate Database is available to researchers under request, which will be evaluated case by case. All requests for the SSIG-SegPlate Database must be submitted to the one of the authors of the paper "Benchmark for license plate character segmentation". To receive a copy of the database, END-USER named must be a legal institution, or a department or section of a named legal institution, not an individual nor a project the person signing this Agreement has to be duly authorized by the institution for such signatures (e.g., Department or Administrative Head or similar) and shall be liable for such authorization.

### Terms and Conditions

By signing this document, END-USER agrees to receive a copy of the SSIG-SegPlate Database under the following restrictions and obligations:

**1. Redistribution:** the SSIG-SegPlate Database cannot be, in whole or in part, further distributed, published, copied, disseminated or broadcast, in any form, whether for profit or not. That includes further distribution to a different facility or unit within the END-USER's university, organization, or company. An exemption is provided for a small number of images located in the folder named "Samples\_to\_Show", which can be used for illustrations of scholarly posters, presentations and publications.

**2. Commercial Use:** The SSIG-SegPlate Database, in whole or in part, may not be used for commercial purposes, directly or indirectly,

including its use for product development or other for profit activities, without the express permission of SSIG.

**3. Citation:** All documents and papers that report on research that uses this database must acknowledge the use of the database by citing the following reference:

G. R. Gonçalves, S. P. G. da Silva, D. Menotti, W. R. Schwartz. Benchmark for license plate character segmentation. *Journal of Electronic Imaging*, 25(5), 053034-053034, 2016.

**4. Protection of identity:** The identity of the subjects in the database is strictly protected. Names are not released. We agree not to disclose the names of the persons in the database and to connect the data with the names, if we get this information through another source. Furthermore, only images in the folder named "Samples\_to\_Show" can be used for illustrations of scholarly posters, presentations and publications.

**5. Indemnification:** The END-USER agrees to indemnify, defend, and hold harmless the Smart Surveillance Interest Group, the Computer Science Department, and the Federal University of Minas Gerais, their administration, officers, employees and agents, individually and collectively, from any losses, expenses, damages, demands or claims based upon any injury or damage (real or alleged) resulting from END-USER's use of the SSIG-SegPlate Database. The END-USER agrees to take full responsibility and pay all damages, claims, judgments or expenses resulting from END-USER use of the SSIG-SegPlate Database
